

ECOHYDROLOGY AND LAND- WATER-ATMOSPHERE INTERACTIONS

This is an interdisciplinary interest area with a special focus on the following topical areas. Explore faculty research options through the URLs provided.

- Regional and global hydrometeorology, and land-atmosphere interaction
 - Albertson <http://www.duke.edu/~jda4h/research.html>
 - Barros <http://barros-group.cee.duke.edu/>
 - Avissar <http://www.cee.duke.edu/faculty/avissar/index.php>
- Ecohydrology of water limited ecosystems and soil biogeochemistry
 - Albertson <http://www.duke.edu/~jda4h/research.html>
 - Porporato <http://www.cee.duke.edu/faculty/porporato/index.php>
- Contaminant transport hydrology across surface/subsurface interfaces
 - Medina <http://www.cee.duke.edu/faculty/medina/index.php>
- Stochastic fluid and contaminant transport in saturated and unsaturated soil
 - Kabala <http://www.cee.duke.edu/faculty/kabala/index.php>
