

EMERGING CONTAMINANTS AND THE ENVIRONMENT

This is an interdisciplinary interest area with a special focus on the following topical areas. Explore faculty research options through the URLs provided.

- Microbial Ecology and Molecular Biotechnology
 - Gunsch <http://gunsch.pratt.duke.edu>
- Natural and Manufactured metal nanoparticles
 - Hsu-Kim <http://hsukim.pratt.duke.edu/research>
- Atmospheric nano-particles
 - Khlystov <http://aerosol.pratt.duke.edu/>
- Trace gas production and transport in soil
 - Peirce
<http://www.cee.duke.edu/faculty/peirce/index.php>
- Membranes technologies
 - Wiesner <http://wiesner.cee.duke.edu/?q=node/13>
